Humboldt Baykeeper's mission is to safeguard our coastal resources for the health, enjoyment, and economic strength of the Humboldt Bay community through education, scientific research, and enforcement of laws to fight pollution.

Humboldt Baykeeper is a project of the Ecological Rights Foundation and a member of the California Coastkeeper Alliance and the international Waterkeeper Alliance. Humboldt Baykeeper works as an advocate for Humboldt Bay, its associated watersheds, and the near-shore waters of the Pacific from the Eel River to the south and the Klamath River to the north.
